SOUHEGAN WHITE	NEW HAMPSHIRE PINK	CHELMSFORD WHITE
CHICOUTIMI BROWN	ST. JOHN	PEERLESS BLACK
MILFORD PINK	SAGUENAY RED	CHELMSFORD GRAY

Illustrated above is an exhibition panel located in the Architects Samples Corporation, 101 Park Avenue, New York. It shows only a few of a wide range of granites commercially available at the present time. These stocks include imported and domestic granites and a wide choice of colors.

The partial list of granite stocks shown on the opposite page and fabricated by H. E. Fletcher Company includes the names of some of the most famous and distinguished stones on the granite market. Many of the names are renowned stocks from

old established quarries. In all cases however, even stocks from less well-known sources are readily available, and deliveries certain.

Since its establishment in 1880 the H. E. Fletcher Company has been guided by an insistence on what is best defined as Service. Technical experimentation and research in quarry techniques, fabrication methods, administrative procedures have as their paramount objective this principle of service. The special characteristics of each stock are studied and its

STOCK	QUARRY LOCATION	Approx. Max. SLAB SIZES	VARIATIONS IN APPEARANCE
CHELMSFORD WHITE	West Chelmsford, Mass.	Unlimited	Slight variations in texture
CHELMSFORD GRAY	West Chelmsford, Mass.	Unlimited	Slight variations in texture
SOUHEGAN WHITE	Milford, N. H.	Unlimited	Fairly uniform texture
ST. JOHN	Quebec, Canada	8'-0" x 3'-0"	Clear—quite uniform
MILFORD PINK	Milford, Mass.	Unlimited	Fairly uniform texture
NEW HAMPSHIRE PINK	New Hampshire	9'-0" x 2'-6" or 6'-0" x 3'-0"	Coarse
BEAR'S DEN GRAY	Mason, N. H.	9'-0" x 4'-0"	Occasional dark knots and graining, some variation in color
SAGUENAY RED	Quebec, Canada	8'-0" x 3'-0"	Clear—quite uniform
PEERLESS BLACK	Quebec, Canada	10'-0" x 7'-0"	Occasional slight green vein
CHICOUTIMI BROWN	Quebec, Canada	9'-0" x 6'-0"	Variations in texture, grain and color
EXTRA DARK QUINCY	Quincy, Mass.	9'-0" x 4'-0"	Occasional small black spots, otherwise quite uniform
MT. CORAL PINK	Guilford, Conn.	10'-0" x 7'-0"	Wide variations in texture, grain and color
MISSOURI RED	Graniteville, Missouri	10'-0" x 5'-0"	In general, clear, but occasional thin dark vein
SWED ROSE RED	Sweden	9'-0" x 3'-0" or 5'-6" x 4'-6"	Clear with some color variation
IMPERIAL MAHOGANY	Milbank, S. D.	10'-0" x 5'-0"	Some waves and veining
EMERALD PEARL	Norway	10'-0" x 4'-0"	Liberally sprinkled with pearl-like crystals

NOTE 1: Maximum dimensions listed above apply to 3"-4" thicknesses; 1"-2" thickness require smaller dimensions

NOTE 2: For Veneers we recommend Bed and Joint of 1/4"

NOTE 3: The granites listed above the heavy red rule are from quarries owned and operated exclusively by the H. E. Fletcher Company.

status of commercial availability known before including a granite in our list.

This point concerning availability is of concern since many beautiful granite stocks seen as samples prove in practice to be affected by various restricting circumstances,—limited quarry potentialities, limited size or capacity of quarry equipment, difficulties of transportation, and many other factors that specifically determine whether a stock is obtainable and to what extent. In the last generation many quarries here and

abroad have ceased to operate or have so shrunk their operations that it has been necessary to check sources before including any granite in a listing under our name.

Certain stocks are from our own quarries. These we know particularly well, but each stock is outstanding of its kind and appropriate with distinction to some architectural need.

With this edition of our color catalog the H. E. Fletcher Company is pleased to announce a new policy by which the company will sell rough blocks to fabricators of granite.
